

TIME to DINE

CRAFTED FOR YOU

COVID-19 Response

At TIME to DINE we are committed to maintaining a safe and healthy workplace for our employees and clients while providing amazingly delicious and healthy meals. With COVID-19 officially listed as a pandemic by the World Health Organization (WHO) and with so much yet to be understood, we want to take a moment to let you know that we are taking extraordinary and proactive steps to ensure our team and clients safety. We recognize that when we are safe, our clients are, too.

During this time we want to emphasize:

1. TIME to DINE is committed to providing wholesome food and abiding by the rules and recommendations of the CDC, OSHA and Cobb County Department of Health.
2. According to the FDA, there's currently no evidence of food or food packaging being associated with the transmission of COVID-19. However, the best practice is always to wash your hands thoroughly and often, especially before and after touching the food containers and also throwing away those containers as soon as possible.
3. All food, produce and paper goods are purchased only from authorized & vetted vendors. All purchased deliveries are inspected and sanitized upon receipt. Vendor's delivery drivers will not be allowed beyond the receiving area of TIME to DINE.
4. We have implemented extensive sanitation practices and procedures which includes enhanced training to maintain a safe and hygienic environment for our employees and clients
5. Social distancing will be required for all deliveries and events
6. You will see your Catering Ambassadors double gloving and wearing masks while delivering and setting up orders.
7. By being vigilante, we will constantly and continually provide our best efforts and highest standards to keep the workplace and our clients safe.

Be healthy, Be safe, and Eat well!
